

**What is claimed is:**

**[Claim 1]** 1. A method for scenting a toilet paper roll comprising the steps of:

providing a tubular toilet paper roll made of an absorbent material,  
applying a liquid scent to the toilet paper roll,  
disposing toilet paper onto the roll to form a toilet paper roll, and  
wrapping the toilet paper roll substantially air tight with a material  
impervious to the scent, thereby scenting the toilet paper roll.

**[Claim 2]** 2. A method for diffusing a pleasing scent to a bathroom when it is needed comprising the steps of:

providing a roll of toilet paper having a scented roll, and  
unrolling at least a portion of the toilet paper at the time of use to  
expose the toilet paper to the bathroom air, thereby freshening the bathroom  
air when it is needed.

**[Claim 3]** 3. The method of claim 2, the step of providing a roll of toilet paper having a scented roll comprising the steps of:

providing a tubular toilet paper roll made of an absorbent material,  
applying a liquid scent to the toilet paper roll,  
disposing toilet paper onto the roll to form a toilet paper roll, and  
wrapping the toilet paper roll substantially air tight with a material  
impervious to the scent, thereby scenting the toilet paper roll.

**[Claim 4]** 4. The product made by the process of claim 3.

**[Claim 5]** 5. A scented toilet paper roll comprising:

a tubular roll made of a material capable of absorbing a scent;  
a liquid scent capable of being absorbed by the tubular roll;  
toilet paper disposed on the tubular roll; and

an air tight wrapping wrapped around the toilet paper, roll, and scent, whereby the scent absorbed by the roll is diffused through the toilet paper while wrapped by the wrapping.
